

latch

Push - Pull latch black. Stainless steel A4

This latch pull and push button lock is stylish and functional. It's knob and ring are perfectly aligned. Inner mechanism complete stainless steel A4. This makes the latch suitable for outdoor use.

Because of it's rollerstrike the latch will be closed at all times.

The knob can be mounted recessed, flush or extracted. It will keep your drawer shut at all time. Only by pulling the knob you can open the cabinet door.

- Push - Pull lock black
- Dimensions 77x45mm

- Centers 65mm
- Door thickness 19mm
- Easy mounting
- Stainless steel A4 inner mechanism
- Unique design. Patent pending.

* Attention! Excl. accessories! Parts are sold separately.

€ 40,-*

Fastmounts latest addition. 'Stratlock Range'

The Stratlock Range is a heavy-duty panel mounting solution for installing heavy panels mounted into aluminium or steel extrusion framework. With no special installation tools required, the Stratlock Range is a hidden fixing that installs rapidly into the framework and panel, provides 360° adjustment of the panel before locking into place, and boasts our highest shear strength and pull out load. Designed and manufactured in New Zealand

specifically for the contract interior fit-out industry. Typical applications include heavy wall and ceiling panels in hotels, hospitals, retail and residential.

Soon available at Kroon.
